ISO 9001:2008 Registered

Norwich Plastics is one of North America's leading vinyl recyclers with current operations in Ontario Canada and Tennessee U.S.A. We have been specialized in PVC recycling since the 1990's and have been in plastics recycling as a corporation since 1986. We work with PVC and Vinyl product manufacturers, as well as waste generators to reclaim and reprocess over 40 million pounds of PVC from waste per year. Our commitment to the environment and supporting corporate sustainability initiatives remains our driving force, as we continue to create new technologies, products and methods of handling and reprocessing vinyl.

Norwich Plastics is a proud member of the Vinyl Institute of Canada and we fully support the VIC's initiatives and efforts to better the Vinyl Value chain in terms of environment, economy and job creation.

The VIC plays a key role in speaking for the Vinyl Industry in Canada and internationally about issues that affect our polymer. The Vinyl Institute of Canada and its alignment with the Vinyl Institute based out of Washington, D.C. gives our industry a truly North American presence, and to that point, VIC continually focuses its efforts on assisting governments, consumers, and brand owners, while at the same time, moving our industry forward in the production, safe use and safe reclaim and recycling of Vinyl.

As a member of the VIC recycling committee and Director here at Norwich Plastics, it is both a pleasure and a relief to work with such a dynamic team of invested companies and members. The goals of the VIC and their drive to address corporate and public issues from a pragmatic and level perspective, is unparalleled in today's world with respect to challenging hasty regulations, bans, and unfounded and unsubstantiated fear mongering of the plastics industry.

As more and more studies show how plastics and Vinyl are sustainable, and help improve our quality of life, it is imperative that we continue to promote these benefits to the public and to our industry.

Support and membership in the VIC is one of the best ways that we can build, create, and find balanced solutions to both issues and opportunities for all of our Vinyl related stakeholders.
